Saidur Rahman Sujon

Software Engineer | Distributed Systems & Applied AI

Tokyo, Japan · sr.sujon.cyb@gmail.com · sr-sujon.com
linkedin.com/in/sr-sujon · github.com/SR-Sujon · Google Scholar

PROFESSIONAL SUMMARY

Full-Stack Software Engineer and published AI Researcher with **2+ years** of experience architecting mission-critical enterprise systems and production NLP pipelines. Specialized in scalable microservices, warehouse management systems (**Java Spring Boot**, **React**, **PostgreSQL**, **Docker/Kubernetes**), and Large Language Model (LLM) fine-tuning. Author of *Architecting for Scale & Chaos* and peer-reviewed researcher in **IEEE Xplore** and **Elsevier**.

PROFESSIONAL EXPERIENCE

Software Engineer
Apr 2025 – Present

MASS HOLDINGS CO., LTD · Tokyo, Japan (Full-time)

- Engineer and maintain enterprise Warehouse Management Systems (WMS) handling high-volume daily order fulfillment using **Java Spring Boot**, **React.js**, **Tailwind CSS**, and **PostgreSQL**.
- Architect dedicated microservices for thermal label printers to automate delivery slip generation, and modernize legacy logistics workflows through **C#** system integrations.
- Orchestrate end-to-end software releases and containerized production deployments using **Docker** and **Kubernetes**, ensuring high availability and minimal system downtime.

Research Assistant (AIRG Grant)
Nov 2024 – Aug 2025

Ahsanullah University of Science and Technology · Dhaka, Bangladesh

- Engineered *PsychAI*, a Bengali-supported clinical mental health assistant powered by fine-tuned LLMs, achieving **86.84% symptom classification accuracy** and a **4.34/5.0 Human Evaluation Score** from clinical psychologists.
- Curated *MonBarta*, a validated synthetic dataset of 200 clinical mental health conversations via clinician-supervised few-shot generation for low-resource NLP.
- Co-authored and published peer-reviewed clinical AI and NLP research in **IEEE ICSECS 2025** and **Elsevier's Natural Language Processing Journal**.

Full-Stack Developer & AI Engineer
Jan 2024 – Dec 2024

Freelance (Upwork & Direct Clients) · Remote

- Delivered production-grade full-stack web applications, custom RAG architectures, and automated ML pipelines for international clients using **React.js**, **Node.js**, **LangChain**, and **OpenAI APIs**.
- Engineered ***Takaramichi*** ↗ (inbound resort & ski rental management platform for Nozawa Onsen/Hakuba Village) and ***Chatter AI*** ↗, maintaining a 100% client satisfaction rating.

PUBLICATIONS & AUTHORSHIP

Architecting for Scale & Chaos: The Solution Architect's Handbook ↗ — BOOK

Distributed Systems, Fault Tolerance & Real-World Resilience · Oct 2026

- Authored 16 chapters featuring 93 architectural blueprints, 56 production post-mortems, and battle-tested patterns for high availability, disaster recovery, and production RAG.

MonBarta: Deep Dive into Psychological Diagnosis of Mental Health Conversations Using LLM ↗ — IEEE XPLORE

IEEE 9th Intl. Conf. on Software Eng. & Computer Systems (ICSECS) · Oct 2025

Harnessing Large Language Models Over Transformer Models for Detecting Bengali Depressive Social Media Text ↗ — ELSEVIER

Natural Language Processing Journal — Elsevier · Vol. 7, Jun 2024

Bengali Social Media Depressive Dataset (BSMDD) — 21,910 Annotated Samples ↗ — MENDELEY DATA

Mendeley Data (Elsevier) · Oct 2024

SELECTED PROJECTS

Japan Bangladesh Advisory — Corporate Portal — LIVE SITE ↗

React.js · Tailwind CSS · Google Maps API · SPA Architecture

- Architected a high-performance, mobile-responsive single-page corporate portal featuring interactive service layouts, Google Maps integration, and automated inquiry routing.

LlamaChirp — Local LLM PDF Intelligence — GITHUB ↗

Python · LangChain · Ollama · ChromaDB · Chainlit · RAG

- Built a privacy-first Retrieval-Augmented Generation (RAG) system enabling dynamic conversational querying over complex PDF documents using locally hosted LLMs.

Stock Price Prediction — Sentiment & LSTM — KAGGLE ↗

Python · Keras · TensorFlow · NLTK (VADER) · Pandas

- Developed a quantitative forecasting pipeline combining historical equity market data with news sentiment analysis using multi-layer LSTM neural networks.

EDUCATION

M.Sc. in Financial Engineering — COURSEWORK

WorldQuant University · 2026 – Present

- Credential: Foundations of Financial Engineering (8 Graduate Credits — Financial Markets, SVD/PCA Risk Analytics & Financial Data with Python, Aug 2026)

B.Sc. in Computer Science & Eng.

Ahsanullah University of Science & Technology

- 2019 – 2023 · **CGPA: 3.58 / 4.00** (Graduated with Honors)

TECHNICAL SKILLS

Languages
Java, Python, TypeScript, JavaScript, C#, C++, SQL, Cypher

Backend & Distributed Systems
Spring Boot, Node.js, Express.js, Microservices, REST APIs

Frontend
React.js, Next.js, Tailwind CSS, HTML5/CSS3, SPA

AI, ML & Quantitative Modeling
PyTorch, TensorFlow, LangChain, Ollama, RAG, Graph Neural Networks (GNNs), NLP, Scikit-learn, ARIMA, Pandas, NumPy

Databases, DevOps & Tools
PostgreSQL, Neo4j, MongoDB, Docker, Kubernetes, CI/CD, Git, Linux, IntelliJ IDEA

CERTIFICATIONS & AWARDS

ITEE Level-II: Fundamental IT Engineer Exam (FE)
BD-ITEC (IPA Japan Standard) · Full-Passer · Apr 2024

B-JET ICT Engineers Training (Basic & Basic Plus)
North South Univ. & Univ. of Miyazaki · Dec 2024

- High Performance Award, 100% Attendance & Programming Contest Achievement

Prompt Engineering for ChatGPT
Vanderbilt University (Coursera) · Verified Credential

LANGUAGES

English: Professional Working	*Full Professional*
Japanese: JLPT N4–N3	*Business & Daily*
Bengali: Native	*Native / Bilingual*
